What He Observed in Other Cities Convinced Him That a Straight Party Ticket Is the Only One Possible.

Colonel H. C. Lett returned yesterday from a seven weeks' trip to the east. He went as a delegate the silver convention held lately at Denver. His visit was, in fact, one in the interest of silver, and while he had his views upon the question of American coinage before, he comes back imbued with the idea that nothing less than free and unlimited coinage will fill the

At Denver he attended a meeting of the real estate exchange called to raise a fund to buy the Kitridge block, one of the most magnificent pieces of property there. After the meeting he was invited to talk on the hopes, prospects and possibilities of links. both meeting he was invited to talk on the hopes, prospects and possibilities of Utah and Salt Lake. He was well at himself on that occasion and made it a point not to neglect a compliment to Denver, and to speak of her beauty and her enterprise, saying that we had adopted Denver as our pattern, and he did not forget to express the conviction that we would fully come up to the pattern at an early day, and he hoped that when he made the comparison to the pattern at an early day, and he hoped that when he made the comparison between Utah and Colorado, it was no disappointment to say that we possessed all that Colorado had and even more. He asserted that the time would not be long when the resources of these sister states would show results as great as any in the would show results as great as any in the American union. He tried even to do full justice to the gas strikes, then just known, which all recognized would be the thing to bring us out, and but for the season of the year we would see a rapid influx here of those who desire to be first to reap the advantages of the find. He met many people who were very familiar with

"What of the business outlook!"

"I have met no intelligent man in speaking of the building of a great city in Utah but what believes that Sait Lake will be such. The resources of this region are known; her mineral, agricultural, horticultural and stockgrowing interests, while as to climate, they regard it as the most healthful spot on the continent. My impression is, from observing all the main western cities, that the opportunities here for the near future are not equalled by any city or country in the United States today. Of this I am better satisfied than at any time in my several years residence here, and all know my faith has been a strong and abiding one. The question with many is simply one of hauling in the STION, Democrats! Go to J. C. McNally, retail block and have your naturalization perfected. ### Hot Griddle Cakes.

Dr. Price's Cream Baking Powder possesses a peculiar merit not approached by that of any other baking powder. It produces the hot buckwheat, Indian or wheat cakes, hot biscuit, doughnuts, waffles or muffins. Any of these tasteful things may be eaten when hot with impunity by persons of the most delicate digestive organs. Dr. Price's Cream Baking Powder leavens without firmentation or decomposition. In its preparation none but the purest of cream of tartar, soda, etc. is used, and in such exact equivalents as to always guarantee a perfectly neutral result, thereby giving the natural and sweet flavor peculiar to buckwheat and other flour that may be used, the natural flavor so much desired and ap preciated by all. The oldest patrons of Dr. Prices powder tell the story, that they can never get the same results from any other leavening agent, that their griddle cakes, biscuits, etc. are never so light and never taste so sweet or so good as when raised with Dr. Prices Cream Baking Powder.
